**Sara Pernas García**

Department of Social Sciences,  
Geography and History

I'm Sara. I'm a teacher of History and archaeologist. My interests range from education to History, Heritage, Archeology, and Museums.

I'm interested in bringing the past to young people to reflect on the present. Participation in this project is a great opportunity on a personal level, for our students and for our center, to promote live learning of European and democratic

**José Angel Molina Carmona**  
Vice director  
Department of Economics

Hello,  
I am José Ángel Carmona, from the Department of the Economy. I want to participate in this Erasmus + HOME project because in previous experiences in other Erasmus projects I have verified the transformative power they have on students and teachers. It seems essential to know other realities. Specifically, the theme of the project interests me in particular, since

**Mercedes Pujol**

Department of Mathematics

Hi,  
I'm Mercedes. I participate in this project because I believe in the construction of a European citizenship through these programs, and in particular because it is necessary to know our history to know who we are and to be able to solve problems with the greatest number of resources.

**Cristina Martínez Martínez**

Department of English language

Hi all!  
I'm Cristina Martinez and I wanted to get involved in this project because I feel we all need to exchange ideas on this important topic: how and why humanity has moved and will continue to move for years to come. A good topic for our young students to learn and experience with other students from different nationalities.

**Trinidad Agulló Pérez**

Hi all!  
HOME project means to me a "Window" to Europe, a chance to share knowledge and experiences.

**Victoria Eugenia Esquitino  
Soler**

Department of Mathematics

Hi all!  
I'm Victoria. I'm participating in this project because I believe that we all need to know our history to realize what we have in common and that this serves as a basis for accepting our differences.

**Eva Silvestre Muñoz**

Department of Religions

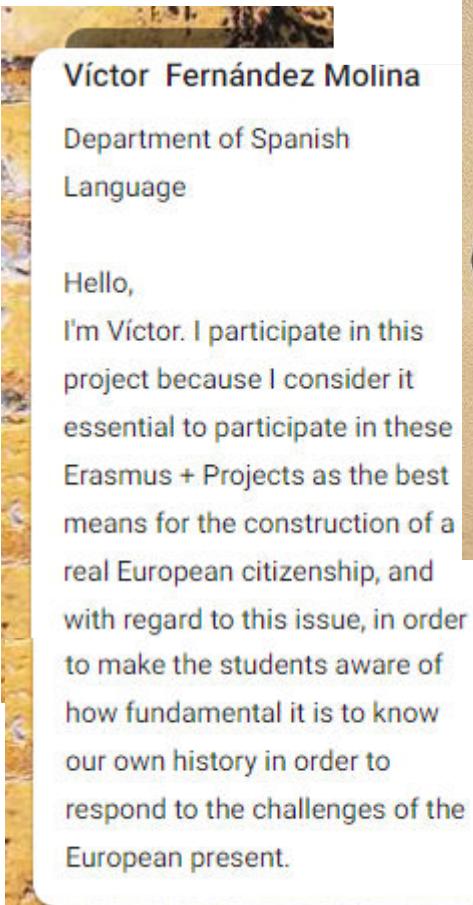

Hi, I'm Eva. I have taught classes for years, bringing students closer to different realities through the center project "Instituto solidario" together with Jose Ángel. We carry out awareness talks for students about migrants from other countries and in our Valencian community, we carry out solidarity campaigns with NGOs.

**Maria Concepción Irles  
(Conchi)**

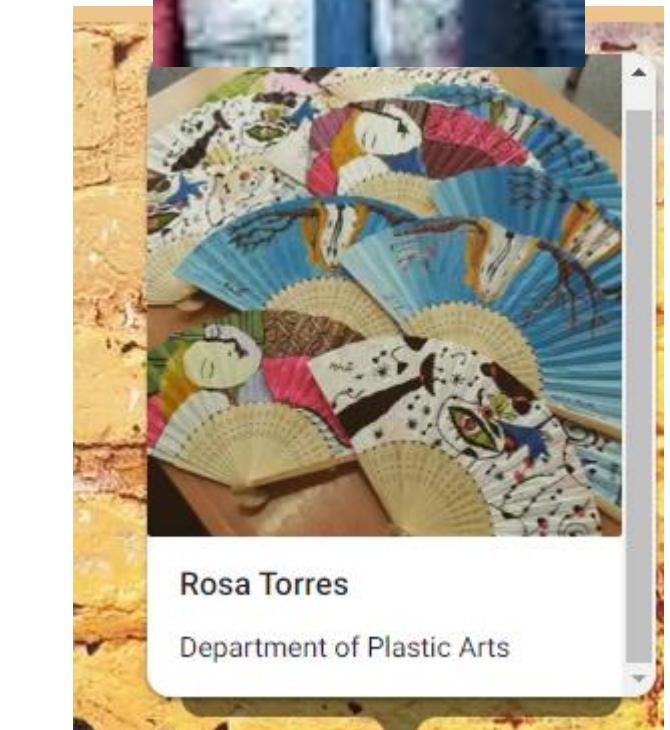

Department of Social Sciences,  
Geography and History

Hi all!  
I wish this project could give us  
CONSCIOUSNESS & HOPE.

**Víctor Fernández Molina**  
Department of Spanish  
Language

Hello,  
I'm Víctor. I participate in this project because I consider it essential to participate in these Erasmus + Projects as the best means for the construction of a real European citizenship, and with regard to this issue, in order to make the students aware of how fundamental it is to know our own history in order to respond to the challenges of the European present.

**Rosa Torres**  
Department of Plastic Arts

A collection of colorful, hand-painted fans is visible in the background.

TO FINISH WE WOULD LIKE TO SHARE WITH YOU THESE WORDS FROM OUR COMPANION EVA

I would like this new HOME project to give us a boost to continue this work, to serve to make sense of these words: welcome, protect, integrate and promote. It's not just about migrations, it's about our humanity.
